EDUCATION

Year	Degree	Institute	CGPA/%
2022 - Present	B.Tech	IIT (BHU) Varanasi	8.30 CGPA
2021	12 th - TSBIE	TSRJC Sarvail	98.80%

EXPERIENCE

- **GSoC'25 @Zulip**
 - [Contributed](#) to the open-source organization Zulip through Google Summer of Code'25.
 - Improved integrations framework of Zulip and worked in the areas of Webhooks, Event management, Full Stack.
 - **Exposure:** Open-Source, Django, Webhooks, Git, GitHub, Testing, RabbitMQ.
- **Intern @Samsung R&D Bangalore**
 - Worked as an intern at Samsung R&D Bangalore from May'25 to July'25.
 - Contributed to the full-stack development of a product in Building Energy Management Systems involving frontend, backend and testing.
 - **Exposure:** ReactJs, VueJs, SpringBoot, JUnit Tests, Jira.

PROJECTS

- **Issue Assigner - GitHub Bot**
 - Built a GitHub app named [Issue Assigner](#), which assigns an issue to a user when they request it in comments by using a prompt like `@issue-assigner claim`, and guides users when an issue is opened, being used by 40+ maintainers.
 - Used **Probot** framework, enabled customizable prompts from the user and **customizable** comments from the bot through the config file in the repository. Created robust unit and integration **tests** and **http mocks** using Nock.
 - Wrote an [article](#) on Medium about how it works and the motivation behind it, [published](#) the app on the official probot site.
 - **Exposure:** Node.js, Building GitHub Apps, Probot, Testing, Nock, Webhooks.
- **ISRO GeoSpatial - Bronze Medal @ Inter IIT Tech Meet 2025**
 - [Engineered](#) a **VLM** platform for ISRO satellite imagery in **air-gapped** environments, integrating Qwen and SAM3 via a FastAPI inference server and server-side events (**SSE**) to stream real-time reasoning.
 - Architected a one-click **Dockerized** stack with self-hosted MinIO storage, ensuring 100% uptime through extreme stress tests and manual recovery from multiple cloud infrastructure failures.
 - **Exposure:** React, NodeJS, FastAPI, MongoDB, MinIO, Docker, VLM Inference deployment, DigitalOcean, AWS Shell Scripting, Prompt engineering, Server side events.

TECHNICAL SKILLS

- **Areas:** Full-Stack, App Dev, DevOps, Inference Servers, Low-level programming, Interpreters, Web3.
- **Frontend:** ReactJS, Next JS, Vue JS, Three.js, Figma, Tailwind CSS.
- **Backend:** Express JS, Django, Flask, Graph QL, Prisma, MongoDB, MySQL.
- **DevOps:** Git, Making GitHub Bots using the Probot framework, Shell Scripting, AWS EC2.
- **Languages:** C, C++, JavaScript, TypeScript, Python, Rust, Go.
- **Other:** Solidity Smart-contracts, Hardhat JS, Deep Neural Networks, CNN, Flutter

ACHIEVEMENTS

- Grabbed **Bronze medals** at Inter IIT Tech meets 2023 and 2025, a competition among all IITs.
- All India Rank **2007** in **Jee Advanced** 2022 and **99.52 percentile** in **Jee Main** 2022.
